The Design Oracle

Instructions

1. Print this file one sided. Don't scale it. Print it at 100%.
2. Glue the fronts to the backs. Or, glue them both to a core material (like card stock).
3. Cut them out.
4. Have fun!

Tips:
- If you don't care about card backs, print only pages 2-9.
- For best results, print the fronts (pages 2-9) onto good quality card stock.
- We recommend paper cement for gluing fronts to backs. A credit card comes in handy for pushing out bubbles.

You can find rituals, card interpretations, spreads, and more on our website: http://design-oracle.github.io/
